

The college offers Experiential Learning Programme in the VIII semester. Experiential Learning Programme is to sensitize the students about the dynamics of business environment and mentor them to experience the process of applying the professional knowledge and skills in identifying attractive business ideas, converting them into sustainable business models and managing them efficiently and effectively. The Programme is being carried out by preparing projects for Local Self-Governments, Co-operative Societies, and Self-Help Groups, conduct of Financial literacy programmes, Procurement and Marketing of Agribusiness products. Hence, the Curriculum expects them to be placed in the business firms like Co-operatives, Producer companies and other Agribusiness organisations.
